HALO FOOD SERVICE RANGE— The Halo K Series

The K Series Features

- Designed to 40 Degrees ambient operating temperature
- Requires one standard power point : - 240V 50Hz 10 amp
- Digital Temperature Display
- 3 height adjustable shelves per door. Individual shelves behind each door maximize storage configurations
- Stainless steel construction for superior corrosion resistance
- Stainless steel internal floor with coved corners allows for easy cleaning and sanitizing
- Large castors for ease of cabinet movement
- Solid lockable doors. Designed with recessed handle and self closing hinging with 90 degree dwell feature
- LED interior lighting
- One piece door gaskets, removable without tools for easy cleaning
- Automatic energy efficient hot gas condensate disposal. No drainage required
- Internal Pressure release valve

HALO FOOD SERVICE RANGE— The Halo K Series

SPECIFICATIONS

- Electronic Controller—Provides precise and constant temperature.
- High-tech Monitor—The monitor digitally displays the present temperature. You can easily change the temperature by adjusting the thermostat
- Lighting : LED interior lights activated by rocker switches mounted above each door.
- Hot Gas Condensate System : The condensate system surfaces have been specially treated to resist corrosion. This not only increases efficiency without the risk of refrigerant leakage from corrosion, but also prevents the overflow of condensate water.
- Door Pressure Release Device : Pressure relief doors are designed to eliminate vacuum pressure and allow easy, instant door opening
- Insulation : 50mm high pressure injected polyurethane foam
- Gasket : PVC welded one piece magnetic gasket. Removable without tools for easy cleaning
- Hinging : Self closing with 90 degrees dwell open
- Shelves : 3 adjustable, PVC coated, steel shelves per door
- Castors : 100mm heavy duty castors, front locking
- Electrical : Cabinets are ready for connection to a 220volt 50hz 10amp GPO. It is recommended that a dedicated GPO is used.
